

# Partner/Customer Palo Alto Networks Traps seminar

**When: On Demand**

**Time: 11:00 - 14:00 (optional)**

Westcons invites you to an on demand seminar. You will get hands-on experience with the Palo Alto Networks Traps seminar.

[Registration >](#)

## Palo Alto Networks Traps seminar

During this seminar you will get hands-on experience and knowledge of general data protection regulation. After the introduction, we get to know the unique values that can be offered to an organization, how Palo Alto Networks Exploit Prevention Works, multi-layer endpoint protection and wildfire integration. We will learn how to extend trust to your endpoint, Compensating Controls for PCI Compliance and about forensics and reports with Traps Management. The day ends with an exam.

Who should attend:  
Sale and pre-sale
